

## CAP3500

Emission Test Station | Workshop

### Wireless and tablet control station to test exhaust pipes emissions (automotive, trucks, motorcycle)

#### Multi-fuel

- Diesel | Opacimeter, opacimax, opacinox
- Petrol | Gas analyzer
- Diesel-Petrol | Combined
  
- Four gas analyzer & opacimeter
- Tablet (8")
- Software : S3500
- Wireless connexion
- Compact design
- On line assistance
- Oil temperature probe
- Secure data protocol : OTC Lan, GIEG Lan
  
- Options : EOBD scantool, fixed base, brackets, EURO5-6 cell, protective cover, customized totem

*Made in France*

**GAS ANALYZER** | CAP3010  
PETROL, LPG ENGINES

- Comply with : OIML R99 Classe 0, ISO 3930 et BAR97
  - Bench : HC, CO, CO<sup>2</sup> and O<sup>2</sup>
  - RPM 0 to 9999 rpm
  - Preheating time 5mn at 20°C
  - Power supply 115-230V 1,5A
  - Automatic neutral
- **Dual mode : gas check, technical inspection**

**OPACIMETER** | CAP3030  
DIESEL ENGINE

- Light and robust
- Opacity curve display check
- Auto adjustment and calibration
- Wireless transmission
- Dirt reduction feature
- Auto calibration

**OPACIMETER** | CAP3040  
DIESEL ENGINE

- Wheel base
- EURO5-6 compliant
- Opacity curve display check
- Auto adjustment and calibration
- Wireless transmission
- Dirt reduction feature

**OPTIONS**

CAP1320 | IR temperature probe  
CAP8520 | RPM  
CAP4250 | EOBD LV, HDV  
CAP1XXX | Protective cover  
PRO3017 | 4 wheels base

**VERSIONS**

CAP3500EX GO | opacimeter & gas analyzer  
CAP3500EX GM | opacimax & gas analyzer  
CAP3500EX GN | opacinox & gas analyzer  
CAP3500EX G | gas analyzer  
CAP3500EX O | opacimeter  
CAP3500EX M | opacimax  
CAP3500EX N | opacinox

**APPLICATIONS**

SR/V/F9-1  
SR/V/F9-2  
SR/V/F9-3  
MID  
NFR 10025

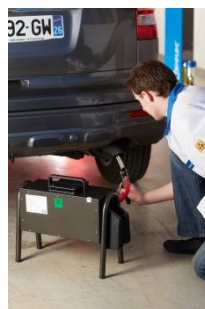

CAP3500  
Tablet

CAP1320  
IR non intrusive  
temperature probe

CAP3500  
Wheel base

CAP3030  
Opacity cell

CAP3040  
Opacimax

CAP4250  
EOBD scantool
