

2081/7 Two Post 7 Tonne Electro-Hydraulic Baseless Lift

Main Features

- 2 Maintenance free rams
- Single point electronic release
- Non-bearing cables for perfect synchronisation of the trolleys
- 4 extended three-stage arms (ideal for lifting vans & LWB vehicles)
- Overload & safety valve – in case of hydraulic hose failures
- Slow descent control
- “Dead man” 24v controls
- Mechanical support device with automatic activation and de-activation (by electro-magnetic valve insuring maximum safety during locking procedures)

	<i>2081/7 Spec</i>
Lifting Capacity	7000kg
Weight	1680kg
Max. Lifting Height	2010mm
Minimum Height	140mm
Motor	3kW – 3Ph 230-400V-50HZ
Lifting/Lowering Time	44/42s
